

Type CJT Series

Tyco Electronics is a leading supplier of standard and custom-designed power resistors for industrial, control and general-purpose applications.

The CJT Series of resistors are advantageous to conventional ceramic resistors in the terms of weatherproofing, oscillation-resistance and safety. They are widely applied to a range of electrical circuits including power supplies, inverters and servo systems. With easy airtight fitting and the ability to fit a heatsink the resistor is highly suited to challenging environmental conditions.
