

- Shape and styling have been designed to provide a compact light weight magnifier which can be comfortably carried in a pocket or handbag.

- A pre-focus tungsten bulb powered by two AA size batteries provides an even pool of light.

- Latest computer generated Bi-Aspheric lenses designed to be free of significant distortion. Abrasion resistant coating index matched to improve light transmission.

- Magnifiers marked with Equivalent Dioptic Power and (F/4) +1 Magnification

ILLUMINATED POCKET MAGNIFIER WITH PROTECTIVE POCKET

5146	Complete Magnifier	5.0X/16.0D
